

Alaska

Bristol Bay Survey

Survey Size:

2,400 square miles; 1,600 stations

Data Spacing:

½ mile intervals on lines 3 miles apart, acquired using helicopter-supported inertial surveying

Terrain Corrections:

Through Hayford-Bowie Zone J

Data Provided:

- **Bouguer Gravity Map (scale 1:96,000): Gravity data are tied to the Worldwide Defense Mapping Agency base station gravity network.**
- **Magnetic tape and computer printout containing all principal survey facts including: station number, date surveyed, latitude, longitude, UTM X-coordinate, UTM Y-coordinate, elevation, terrain correction, station gravity, free-air gravity and Bouguer gravity calculated with three densities**
- **Reports**
