Former Soviet Union (FSU) Digitized Aeromagnetic Data

Overview:

EDCON has carefully and accurately digitized eighteen published aeromagnetic map sheets covering all of the Former Soviet Union. EDCON is offering an accurate alternative to the digital data set offered by NGDC. Specifications for the data set are as follows:

The EDCON-PRJ and NGDC digital data are presented for an area near the Caspian Sea

Data Spacing:

Grid Interval: 5,000 meters

Digital Data:

Projection: Equidistant Conic
Spheroid: Krassovsky

Data Provided:

- Digital Data

Interpretation:

An interpretation of these data is being offered by Gibson Consulting.

Total Cost:

\$3,500
